

Peony Collection

2027 - 2028

One of our fields: Coral Sunset

Lactiflora

Traditional favourites
with strong performance

Hybrid

Strong and reliable,
with excellent flowering

Patio Peony™

Compact beauty
for every garden and patio

Itoh

Perfect for in the garden
and on your patio

'Your preferred Peony grower'

Our Passion

We grow with care and attention for people, plants and the environment

Dutch quality

Strong, healthy and sustainable plants, grown with pride.

Direct from the grower

No commission, direct sales and personal service.

Green Works is the grower specialized in young planting material for Peonies, Ranunculus, Cannas, special pot plants and summer cut flowers.

When you receive peonies from Green Works, you are guaranteed top quality. Our plants bear the Green Works Peony Quality Seal and meet standards that are even stricter than those set by Naktuinbouw. This means you can count on:

- We do not cut any flowers from our fields, so all energy goes to the roots
- Young and healthy plant material, all from 2 year crop
- Checked 3 times in the field for viruses and true to name
- No nematodes (because of Green Works Care™ treatment)
- Dutch and sustainably grown
- Guaranteed true to name
- Good size roots
- Free from invasive weeds
- Professional photography available to customers for free
- Direct sales, no broker commission

Green Works location:

Stolperweg 41, 1751 DH Schagerbrug, The Netherlands

Green Works does *not* harvest Peony flowers

Quality starts at the root

All our peonies are grown as two-year-old plants, resulting in strong young plants with well-developed root systems. Because we do not harvest flowers, the plant can dedicate all its energy to root development.

Every peony is cultivated on sandy soil, providing excellent growing conditions and promoting healthy root growth. Throughout the growing cycle, our fields are inspected several times each year for viruses and to verify that every variety remains true to name.

This careful approach ensures that we deliver vigorous, healthy, and reliable young plant material to professional growers worldwide.

Peony roots from our own nursery

Our peony roots are grown and selected in our own nursery. This gives us full control over quality, uniformity and plant health, ensuring strong and reliable plants.

Newsletter and promotion support

Stay informed about new varieties, growing tips and market developments. Professional photography and promotional materials are available for our customers.

Visit our fields and show garden

Visit our flowering fields in May and June and discover hundreds of peony varieties in bloom at our location in Schagerbrug, the Netherlands.

Planting peonies by our own machine

Our planting machine ensures efficient planting and uniform crop establishment. The machine is also available for sale.

Peony labels from Green Works

Durable, weather-resistant labels are available for all varieties in our assortment and can be ordered together with your peony roots.

Why choose 3-5 eye over 2-3 eye peony roots?

When planting in autumn 2026, peony roots with 3-5 eyes establish faster and produce more flowers than roots with 2-3 eyes.

Example: Sarah Bernhardt

Year	Growth stage	2-3 eyes	3-5 eyes
2026	Planting in fall	-	-
2027	Spring	0	0
2028	Spring	0	3
2029	Spring	4	7
2030	Spring	6	8
2031	Spring	7	9
2032	Spring	7	9
2033	Spring	8	9
Total		32 stems	45 stems

Result: An investment in larger roots delivers earlier production and approximately **40% more stems** over the first years after planting.

THE GREEN WORKS PEONY TRIAL GARDEN

Located next to our warehouse, the Green Works Peony Trial Garden is home to **more than 400 different peony varieties.**

Here we grow, observe and evaluate varieties throughout the flowering season, allowing us to select and share the very best peonies with growers worldwide.

**VISITORS ARE
WELCOME**

From mid-May until mid-June. Visits are by appointment only. Mail to: info@green-works.nl

- Excellent germination
- 8-12 flower stems
- Flowers until first frost

- Green & bronze foliage
- Naturally compact (no growth regulators needed)
